EDEN

Armonia esagonale
Hexagonal Harmony

Quando il sipario dell'ispirazione si alza, svelando il palcoscenico del Teatro, è qui che va in scena l'infinita creatività. E così, il Teatro Eden di Treviso, con la sua forma esagonale, si trasforma in una sorgente di idee. Nasce Eden, una riedizione di mosaico ceramico per l'architettura dalle forme esagonali, un inno alla libertà espressiva.

When the curtain of inspiration rises, unveiling the stage of the Theater, in this moment that the infinite creativity takes center stage. The Eden Theater in Treviso, with its hexagonal shape, becomes a source of ideas for the new EDEN collection, the revolutionary ceramic mosaic for architecture with hexagonal shapes, a celebration of expressive freedom.

La creatività dell'esagono, Eden.

Guardare il futuro attraverso un percorso di evoluzione continua e costante, questi sono i presupposti alla base della collezione EDEN di Appiani. Una collezione di piastrelle in mosaico ceramico sviluppato in 18 colori di toni tenui e polverosi in versione sia lucida che opaca rigorosamente ottenuti mediante la tecnologia esclusiva dello stabilimento Appiani, la monopressocottura, una tecnica produttiva che consente di ottenere prodotti ceramici in cui smalto e gres porcellanato in polvere vengono pressati a secco permettendo così allo smalto di compenetrare nel supporto in gres direttamente nella fase di pressatura. L'elevata temperatura di cottura garantisce al prodotto eccezionali qualità di durata, di resistenza e ingelività ideali per molteplici applicazioni a pavimento e a rivestimento, sia in interno che in esterno. La collezione EDEN di Appiani propone un mosaico montato su rete in fogli 30x30cm, con le tessere nel formato 2,5x2,8 cm che sono considerate un intramontabile evergreen di geometria esagonale che a nido d'ape caratterizzano la nuova collezione in gres porcellanato di Appiani. Eden propone un sapiente studio di cromie le quali, a gruppi di 3, possono miscelarsi in maniera naturale garantendo una perfetta abbinabilità tra toni colore che garantiscono infinite possibilità di abbinamento a professionisti e architetti.

The creativity of the hexagon, Eden.

Looking at the future through a path of continuous and constant evolution, these are the foundations of the EDEN collection by Appiani. The EDEN collection is based on Appiani's concept and innovative design skills. A collection of ceramic mosaic tiles developed in 18 colors of soft and dusty tones in both glossy and matt version rigorously obtained through the exclusive technology of the Appiani factory, the "monopressocottura", a production technique that allows to obtain ceramic products whose glazes and clays are dry pressed, thus allowing the glaze to penetrate into the stoneware support directly in the pressing phase. The high firing temperature guarantees the product exceptional qualities of durability, resistance and frost resistance ideal for multiple applications on the floor and covering, both indoor and outdoor. The EDEN collection by Appiani offers a mesh mounted mosaic on 30x30 cm sheets, with tiles in the 2,5x2,8 cm size, a timeless evergreen of hexagonal geometry that characterize the new collection of porcelain tiles by Appiani. Eden offers a skillful study of colors which, in groups of 3, can be mixed in a natural way ensuring a perfect match between color tones that guarantee endless possibilities of matching to professionals and architects.

Technical Video

Ultra tecnico e Ultra Green

Eden, un prodotto ultra-tecnico che si inserisce perfettamente nella tradizione Appiani, focalizzata sul piccolo formato, la valorizzazione estetica e la cura dei dettagli.

Un prodotto superiore da ogni punto di vista, realizzato in monopressatura in doppio caricamento. Ma anche un prodotto sostenibile, con terre e pigmenti certificati, un bilancio di sostenibilità di fabbrica, investimenti costanti per migliorare l'efficienza delle macchine e del processo.

Appiani dal 1992 è un brand del Gruppo Bardelli S.p.A., la realtà industriale Italiana che ha sempre posto l'eccellenza ceramica al servizio della progettazione contemporanea facendone così il proprio marchio di fabbrica.

Dove la sostenibilità è al centro di ogni processo decisionale, nel rispetto dell'ambiente e delle comunità in cui opera l'attività produttiva.

Ultra-technical and ultra Green

EDEN is an ultra-technical product that fits perfectly into the Appiani tradition, focused on small format, aesthetic enhancement and attention to detail. A superior product from every point of view, made in single-pressing. It is also a sustainable product, with certified clays and pigments, a factory sustainability balance, constant investments to improve machines and process efficiency. Since 1992, Appiani has been a brand of the Gruppo Bardelli SpA, the Italian industrial reality that has always placed ceramic excellence at the service of contemporary design, thus making it its trademark. Where sustainability is at the centre of every decision-making process, respecting the environment and the communities in which the production activity takes place.
